Letter of support

21 June 2017

Dear Mr Walker

This letter is to confirm the support of Mott MacDonald for TQUK's suite of qualifications in "Design Engineer Construct! The Digital Built Environment" as follows:

TQUK Level 1 Certificate in Design Engineer Construct! The Digital Built Environment

TQUK Level 2 Certificate in Design Engineer Construct! The Digital Built Environment

TQUK Level 3 Certificate in Design Engineer Construct! The Digital Built Environment

TQUK Level 3 Diploma in Design Engineer Construct! The Digital Built Environment

We welcome the opportunity to recommend that these qualifications are acknowledged by Government as valid, rigorous, and worthy of recognition for performance table points, giving them academic equivalency and thereby encouraging their uptake in schools.

Furthermore, we have actively supported schools offering the Design Engineer Construct! learning programme and qualifications for a number of years, and recognise their worth in the education of the next generation of young professionals.

The shortage of skills in the Built Environment sector has been a subject of frequent debate over the last decade, and there is a growing recognition that this has to be addressed by raising the awareness of children, parents and teachers about the opportunities.

Mott MacDonald has been a long-term supporter of "Design Engineer Construct!", as we recognise the need to make school-age children aware of potential careers in the Built Environment sector and provide them with an opportunity to understand the various professional career paths, whether these are in architecture,

engineering, environment, town planning or project management. We believe "Design Engineer Construct!" gives children a line of sight to rewarding and fulfilling careers and thus encourages them to pursue STEM subjects which are fundamental to the delivery of the buildings and infrastructure the country desperately needs.

Yours sincerely

A handwritten signature in black ink, appearing to read 'K. Howells', written over a horizontal pink line.

Keith Howells
